

Data Flow Diagram & User Stories

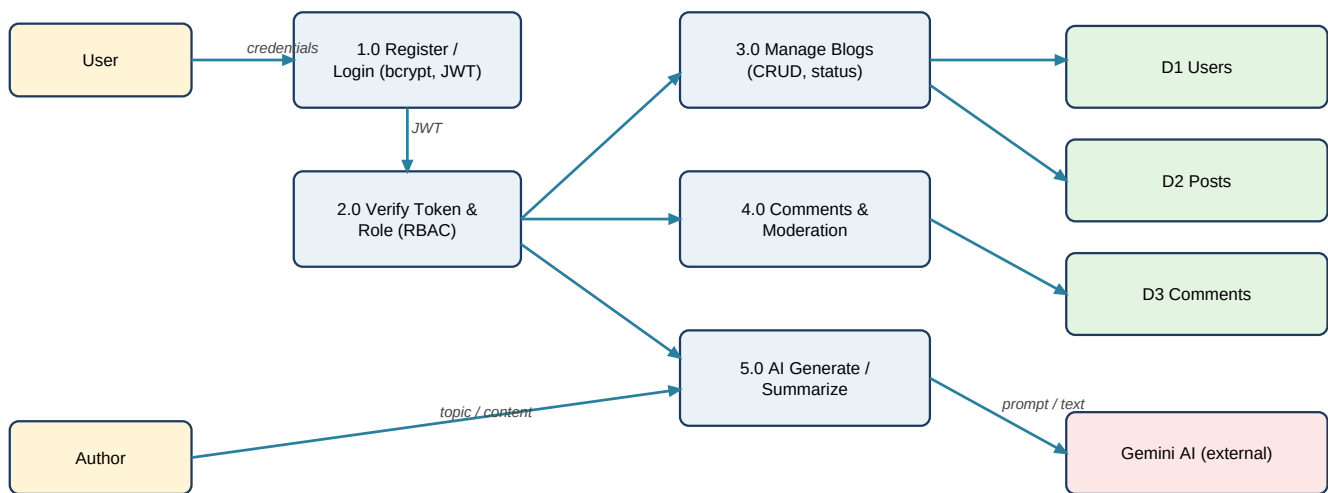

Date	29/09/2026
Team ID	-
Project Name	BlogNest - AI-Powered Blog Management Backend
Maximum Marks	-

Data Flow Diagrams:

A data flow diagram shows how data enters and leaves BlogNest, what transforms it, and where it is stored. **Level 0** shows BlogNest as a single process:

Level 1 breaks the system into its main processes and data stores:

User Stories:

User Type	Functional Requirement (Epic)	USN	User Story / Task	Acceptance criteria	Priority	Release
Reader	Registration	USN-1	As a user, I can register by entering my name, email and password.	Account is created with the reader role and password is stored hashed	High	Sprint-1
Reader	Login	USN-2	As a user, I can log in with my email and password.	I receive a JWT token and can access protected routes	High	Sprint-1
Reader	Blog Reading	USN-3	As a reader, I can view the list of published posts.	Published posts are returned as JSON	High	Sprint-2
Reader	Comments	USN-4	As a reader, I can comment on a post while logged in.	Comment is saved against the post and my user and starts as pending	Medium	Sprint-3
Author	Blog Management	USN-5	As an author, I can create a blog post with title, content and photo.	Post is saved and linked to my user ID	High	Sprint-2
Author	Blog Management	USN-6	As an author, I can edit or delete my own posts.	Only my own posts can be changed; others are rejected	High	Sprint-2
Author	AI Generation	USN-7	As an author, I can generate a blog draft by giving a topic.	The API returns a structured AI-generated blog	High	Sprint-3
Author	AI Summarization	USN-8	As an author, I can summarize a long article.	The API returns a concise summary	Medium	Sprint-3
Editor	Editorial Workflow	USN-9	As an editor, I can review pending posts and publish them.	Post status changes to Published	High	Sprint-3
Editor	Categories	USN-10	As an editor, I can clean up categories and tags.	Unused or duplicate categories are removed or merged	Low	Sprint-4
Administrator	User Management	USN-11	As an admin, I can change user roles and manage accounts.	Role is updated and new permissions apply immediately	High	Sprint-4
Administrator	Moderation	USN-12	As an admin, I can prune spam or malicious comments.	Comment is removed or flagged as spam	Medium	Sprint-4
